President

Greetings from the President

Since its founding in 1980, KITA has been based on the founding principle that “Cooperated in global environmental conservation through international and technical cooperation with developing countries based on the industrial technology accumulated in the Kitakyushu region, at the same time, contributing to the internationalization and the sustainable development of the Kitakyushu region.” We have already welcomed more than 10,000 trainees from overseas and have conducted technical cooperation projects with many countries.

We will continue to carry on the spirit of our basic philosophy and make every effort to contribute to the international community and develop the Kitakyushu region.
